Ananda Ghosh - Profile

About Me

I am Ananda Ghosh, a passionate and motivated MCA student at the Future Institute of Engineering and Management, graduating in 2025. I hold a Bachelor of Science degree from the University of Calcutta. I have a strong interest in software development, data science, and artificial intelligence. My goal is to build intelligent and user-friendly systems that make a real-world impact.

Education

Master of Computer Applications (MCA) - Future Institute of Engineering and Management (2023–2025)
Bachelor of Science (B.Sc.) - University of Calcutta

Technical Skills

Java, Python, Kotlin, Oracle, HTML, CSS, JavaScript, React, Data Science, Artificial Intelligence, Machine Learning, MERN Stack

Projects

1. CNN-based Potato Disease Classification: Developed a Convolutional Neural Network model to detect potato leaf diseases using image classification.

2. Bookstore Website: Created a responsive full-stack web application for managing books, using React for the frontend and database integration for backend functionality.

Training & Certifications

Completed specialized training in Data Science, Artificial Intelligence, Machine Learning, and MERN Stack development.

Career Goals

My future goal is to enhance my expertise in full-stack development and artificial intelligence to contribute to innovative and scalable software solutions.
